Unlocking customer engagement

N-Pay 5 features a generously sized screen capable of displaying information and entertainment, fostering user engagement.

- User friendly interface
- Advertisement
- Promotional activities
- Display error messages
- Multilingual commands

Capabilities Expansion

When used in conjunction with N-and Sniff, N-Pay 5 enables a virtual vending machine keypad, allowing access to programming menus, maintenance menus, and selections. When combined with VMP Link, N-Pay 5 offers:

- "Cart" functionality for multiple sales
- Real-time sales data
- Remote price management
- Convenient promotion management
- Free Sale functionality
- Up to 8 different prices for each selection
- Integration with multiple payment systems
- Bluetooth Low Energy (BLE) support
- Availability of IRDA kit
- Various contactless options

Vending Machine status & error management

When paired with N-and Sniff, N-Pay 5 enables a virtual keypad, providing:

- Programming menus
- Maintenance menus
- Selections
