

Compatible Refurbishment kits

Technological upgrade kit for vending machines

Transform refurbishment into smart vending

Refurbishment is no longer just about aesthetics; it represents the transformation of a machine into an intelligent and connected asset.

With N-Touch, upgrades turn vending machines into intuitive, dynamic, and engaging digital touchpoints.

The user experience is guided by clear navigation, enriched with personalized content and seamless integration with payment systems and smartphones.

Refurbishment becomes a future-oriented strategy, bringing digital intelligence to every machine in your fleet.

Why refurbishment is essential today

Promotes sustainability

Refurbishment extends machine life and reduces waste. Modern components lower energy consumption, reduce costs, and support greener operations.

Enables digitalization

With N-Touch, fleets align with Industry 4.0. IoT, advanced interfaces, and real-time data make machines smarter, connected, and easier to manage.

Improves user experience

Consumers expect digital and personalized vending. Touch navigation, cashless payments, and tailored content create a seamless experience and increase loyalty.

Upgrade path: from legacy to digital vending

At the core of N-and compatible refurbishment kits is the N-Touch panel, available in 10", 13", 15", and 21".

- ✓ Add touch HMI for modern interaction
- ✓ Enable cashless and mobile payments
- ✓ Integrate apps and loyalty programs to encourage repeat usage
- ✓ Enhance UX/UI with branded, customer-oriented design
- ✓ Obtain real-time telemetry and remote monitoring
- ✓ Manage dynamic content across the entire fleet

We make machines smarter, operations more efficient and experiences more engaging.

From digitalization to real value

For operators

- ✓ Fast installation and immediate access to Industry 4.0 features
- ✓ Improved operational efficiency through remote management
- ✓ Increased point-of-sale attractiveness
- ✓ Extended lifecycle of existing machines
- ✓ Support for new revenue models (digital services, content, loyalty)

For consumers

- ✓ Faster, smoother service with less waiting and fewer errors
- ✓ Intuitive touch navigation
- ✓ Cashless and mobile payments
- ✓ Easy access to personalized discounts and offers
- ✓ Dynamic content that informs and entertains

Technology 'powered by N-and'

At N-and, we design the technology that transforms vending.

Since 2015, our mission has been to modernize traditional machines with digital solutions that align the vending experience with today's expectations.

From smart HMIs and embedded systems to payment, telemetry, and IoT platforms, our solutions create competitive advantages for manufacturers and operators, making the consumer journey simpler, faster, and more engaging.

We are proud to be a trusted partner for leading OEMs and operators worldwide, supporting them in aligning their fleets with Industry 4.0. Our approach combines innovation and sustainability, extending machine lifecycles and enabling a greener, smarter vending industry.
